DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Founds House c. 1858-1877 is a 2 story frame house on Oakwood Road, three structures west of Pilot Town crossroads. The house is on the south side of the road with the main facade facing north. The primary gable runs east/west.

The 2 story main block has a 2 story shed roofed addition off the south side. It is 2 bays across by 1 bay deep. The southeast corner is only one story high. A back porch with shed roof is attached to the single bay section. An elevated single story shed roof porch extends across the front of the house.

The structure rests on an uncoursed stone foundation and is totally sheathed with wood shingle siding. There is a medium to steeply pitched roof sheathed with composition tile. There is a central brick stretcher bond stack.

The main facade is 2 bays across with 1/1 sash windows and a replaced front door. The trim to both openings is plain. A small boxed cornice decorates the eave.

The front porch is elevated, the bottom section being closed in with lattice work. The 19th century turned posts with cut out brackets support a shed roof with saw-tooth decoration on the ends of the roof. A hand fail with square balusters was fitted between each support post.

The west side has two 1/1 sash windows on the first floor and one on the second. A small attic light is found in the peak of the gable end. The rear additions do not offer any significant changes in the discussion of the houses appearance.

The interior was not open for inspection but pressured as plain as the exterior.

STATEMENT OF SIGNIFICANCE

The Founds House appears on the 1877 map under that name. It, like all the others, is a modest example of a late 19th century frame house. It offers that another building to mark the extent of the town's expansion.

Pilot Town

CE-840, 842,843, 844, 845 (log house), 846, 847(school no. 3), 848, 849(store), 850, 851, 852, 853(Johnson Victorian), 854, 855, 856, 857, 858, 859, 860, 861, 862, 863.

Pilot Town owes its existence to two primary reasons: The first is the 19th Century mining activity in the area and the second is the shift of the Susquehanna crossing from the Bald Friar ferry to the town of Conowingo. road from Pennsylvania to the Bald Friar ferry passed west of the present Pilot Town crossroads. It is obvious that this route predated any other southerly route in the vicinity especially since the earlier farms and houses are oriented to it. St. Patrick's Church (CE-834), Pembreke Farm (CE-836), Moore-Love log house (CE-845), and the Fulton-Alexander House (CE-841) all date from before the mid 19th Century and stand near or next to the earlier route. Due to the treacherous decent to the ferry and easier access at Conowingo a covered bridge was built across the Susquehanna at Conowingo, which eclipsed ativity at Bald Friar. With the construction of a bridge at Conowingo a more direct southerly route from Pennsylvania was needed, which necessitated an easterly shift in travel. It amounted to a difference of a few hundred yards but was enough to form an intersection with the east/west Mount Pleasant road. Continued interest in the mining of feldspar, soapstone, and gravel in the mid 19th Century brought more development and change. Pilot Town was a definite result of these two factors and the mid to late 19th Century housing that exists today is ample evidence for this occurrence. Pilot Town supported a local market till the early 20th Century (CE-849) and its own school (CE-847) till about the same time.

The houses that make up Pilot Town are traditional two frame structures that one sees throughout Cecil County. (see CE-840, CE-842, CE-844, CE-846,

CE-848, CE-851, CE-852, CE-853, CE-854, CE-855, CE-856, CE-857, CE-858, CE-859, CE-860, CE-861, CE-862, CE-863) The structures are basically plain straightforward buildings that are typical houses for workers in a mining area. This is not to say that the previous agricultural life of area was replaced by the mines. The farming community continued as it had since the late 18th Century but now alongside mining operations that brought Irish immigrants in the early 19th Century.
